

# Hot Melt Systems

## With Nordson ProBlue® Hotmelt Glue

Combi hotmelt case erectors, case sealers and case packers are field proven systems available with a range of hotmelt glue options, in addition to pressure sensitive tape. From 8 to 50 cases per minute, we provide our equipment with industry proven Nordson ProBlue® melters, which are simple, compact and designed to maximize uptime and reduce operating costs.

*2-EZ HM Case Erector*

*2-EZ XXL HM Case Erector*

### ProBlue® Adhesive Melters

- Large tank opening with three sided access allows easier filling and cleaner operation
- Disposable filter eliminates routine filter flushing
- Service indicators simplify maintenance scheduling
- Intuitive graphic operator interface, system status at-a-glance and continuously updated temperature monitoring
- Applies two beads of adhesive between both minor flaps
